About the Piece:

Recently, I traveled to one of the most remarkable places I've ever experienced: Zion National Park in Utah. The park's towering red cliffs and dramatic landscape left me genuinely awestruck—it's a place that stays with you long after you leave.

Of course, being in a national park means that you are basically cut off from the rest of the world. It's just you, and the nature surrounding. And that's what drew me to this place. Lately, I'd been feeling an increasing need to step away from the noise and craze of daily life; to simply exist somewhere without the need of being somebody to someone or something. And I did that with this trip to Zion, finding a place to mentally reset and find some peace.

One of the hikes I found myself going on in Zion was the Riverside Walk. This hike follows the Virgin River, and as you get further along, you find the Narrows. The Narrows is one of the most popular trails in Zion, where following its name, the towering walls are the narrowest throughout all of Zion Canyon. This hike has you walking in the Virgin River, following the beautiful geography and awe-inspiring cliffs filled with stripes and many different hues of red adorning the walls.

The Narrows as a piece is something I've wanted to write but never knew how to. Conceptually, I knew that my time at Zion National Park was something that I would love to write about, but putting it into practice, I never knew how to do it in a way that felt fresh, new, while also telling the story that I wanted to tell. I wanted to write about what I felt walking in the Narrows, in Zion, on the Riverwalk, and the ultimate awe and wonder that one could feel experiencing Zion for the first time.

If I could say one thing about *The Narrows*, it would be this that it's a piece about renewal. I wrote it out of an experience I needed, an experience of resetting and forgetting about life for a little bit.

This piece is for the wanderers who struggle to find rest, whether physical or mental, and for the dreamers, because I understand what it means to dream.

I hope you find something meaningful in *The Narrows*,
Ethan Egli
